# REPORT

OF THE

## SCHOOL BOARD OF THE SCHOOL DISTRICT OF NEW BOSTON,

*For the Year Ending March 1, 1890.*

---

The School Board submit the following report :

We have endeavored to give all scholars as nearly equal advantages as possible. We have maintained ten schools during the year, all but one of which have been in session not less than twenty-six weeks each. The school at house No. 2 had but twenty-five weeks, owing to sickness of the teacher. We have tried to secure teachers of experience and so far as practicable retain them through the year in the same schools.

We think the schools in general have made good progress. The large number of visitors reported shows that an interest has been felt in the schools by the parents. We are glad to notice, in this connection, a contribution of eight weeks' board of teacher by those sending scholars to the fall term at house No. 12. We would recommend to parents to have their children *punctual* and *constant* in their attendance; a large amount of tardiness mars the registers of the past year.

Your Board, in meeting the requirements of the new free text-book law, have found it expedient to make changes in some of the text-books and have placed the following books in the schools: Lippincott's and Franklin's Readers, Greenleaf's Arithmetics, Raub's Grammars, Meservey's Book-keeping, Wentworth's Algebra, and Harper's Writing-books.

In repairs we have done only so much as was absolutely required, believing this best until some permanent plan for the schools is adopted. Agreeable to the vote of the district, your Board have examined the houses in regard to condition and location. We find five houses unfit for school purposes, and we recommend the erection of new houses on or near the sites now occupied by houses Nos. 15 and 16; also a new house near the junction of the roads west of Alfred M. Campbell's, and abandonment of houses Nos. 2, 3, and 9. House No. 5, if continued in use, should have a change made in the position of the chimney. House No. 6, if continued in use, should have a suitable wood-room provided and other repairs, but in our judgment these two houses and No. 7 should be abandoned, and a house of sufficient size built near Mullett Bridge. The necessity of some change for the better accommodation of old districts Nos. 11, 12, 13, and 14 is obvious, and several plans have been suggested, the most feasible of which, we think, is the abandonment of the old houses and the building of a new one at the junction of the roads near John Todd's and another near the Jones Woodbury corner (so-called), on the Frances-town road, provided the town will construct a highway from some point near Richard Batten's to connect with the road leading past J. J. Woodbury's.

### INVESTIGATING COMMITTEE

#### ON SCHOOLHOUSE BUILDING COMMITTEE'S ACCOUNTS.

---

Your committee have attended to the duty assigned them, and, in their judgment, all the work has been well and faithfully done, and all expenditures reasonable. We find that the committee has made no charge for any time, except so much as was put into actual labor. We append a statement of the receipts and expenditures. We find all bills reported therein properly vouched for, and the unpaid bills just, and that they should be paid.

# REPORT

OF THE

## TRUSTEES OF THE NEW BOSTON CEMETERY.

---

Although there may be no marked increase in the living population of the town year by year, yet to the "village of the dead" how steadily are the accessions being made! It is surprising even to us, who are familiar with our cemetery grounds, to see how rapidly the additions made when the trustees came into the care of the cemetery have been taken up in private lots. It was expected that the north side, then the only available ground for lots, would be immediately, or very soon, occupied, on account of the long existing need of cemetery grounds, but not only the first, but a portion of the second, and nearly all of the last or south survey is now occupied; and in the near future all of the remaining unoccupied ground must be surveyed and laid out. We have expended but little labor on the grounds the past year, partly because of the great scarcity of labor in the desirable time for out-door work, and partly because there is no call for it until the unoccupied grounds are to be laid out in lots. Beyond the painting of the hearse-house and the putting up of temporary fence and gates to secure the grounds, and the mowing of brush and briars on the unsurveyed grounds, the labor bestowed has been by private owners of lots; and there has been by them some of the handsomest marble and stone work put in the past year that ever has adorned the cemetery grounds. The fund accumulating in the hands of our treasurer, Mr. McLane, from the sale of lots will have soon reached the point we have desired before expending the interest yearly on such

care and adornment as shall seem best to us or our successors.

The superintendent's report submitted to us and annexed hereto, will be read with interest by you, and by thus reporting to you year by year you readily see how fast these grounds, which you have so often shown your desire should be well cared for, are being occupied by those whose interest while alive and with us in the care and adornment of these sacred grounds, was only equaled by your own present thought and solicitude.

Respectfully,

NIEL McLANE,  
GEORGE A. WASON,  
SOLOMON D. ATWOOD,  
THOMAS R. COCHRAN,  
ALFRED M. CAMPBELL,
